# PicAway

*Take secret photos and send them to your desired cloud location without leaving a trace on your device. Simple to use and easy to setup!*

**Cost: \$0.99 (USD)**

**Sydney – 06/06/2014** - PicAway is a camera app that allows users to take photos and videos secretly and to upload them directly to their cloud destination (Dropbox, Google Drive or to an email), without leaving a trace of the photos or videos on their devices.

PicAway has a wide array of applications. The app is designed as an easy to use camera app for journalists, protestors and people who may want to take photos/video discretely. The app can also be used as an instant solution to the dreaded “Not enough memory” message when trying to capture the moment.

## Notable Features:

- **Auto Upload:** Save directly to your chosen cloud location / Easily setup your cloud location & change settings when needed (Dropbox, Google Drive & Email)
- **Secret Swipe:** Users can use the secret swipe feature to take photos, whilst their screens will only show a usable web browser.
- **Camera Interface:** Easy to use and functional, the interface allows you to access all camera functionality in an easy to use format.

Made with ❤ in Sydney, Australia. © Copyright 2014 PicAway.

We believe in the free flow of information, and believe in the adage that “a picture is worth a thousand words”. We want to provide the users of PicAway with the confidence and power to take photos and videos, without the fear of those photos and videos being deleted, removed and/or lost.
